The information for the Organization you selected is displayed. The NPI Registry data was last updated on 04/30/2013.

NOTE: Some health care providers reported SSN or IRS ITIN information in sections of the NPI application that contain information that is required to be disclosed under FOIA. For example, an incorporated individual may have reported an SSN as the EIN of the corporation. To protect the privacy of this individual, we have temporarily suppressed the EIN, and we have made every attempt to locate and remove SSN and IRS ITIN information from being displayed in any of the other information provided below.

About Our Company

Since our inception in 1989, Bio-Magnetic "OPEN" MRI/MRA IMAGING CENTERS have been producing comprehensive state of the art Magnetic Resonance Imaging (MRI) and Magnetic Resonance Angiography (MRA) in our freestanding outpatient diagnostic centers in Michigan and Ohio. We are very proud to be celebrating our 20th year Anniversary. With today's health care industry, we strive even more than most to maintain and assure that you, a family member or friend are receiving the latest in MR Technology. Same or next day appointments are our specialty. Verification is made to any and all insurance companies for coverage and pre-certification prior to services. Verbal, fax, email and online results are available to referring physicians. Each patient receives a complimentary CD of their study and there is no charge upon request from a physician for copies of their patient's films. Complimentary transportation is available to patients who do not have the ability to provide their own transportation.

What To Expect

Wear comfortable clothing without any metal zippers, snaps or buttons. Patient gowns are available if you do not have this type of clothing. Leave jewelry, watches, hair clips and belt buckles at home. Patient lockers are available.

MEDICAL HISTORIES are obtained to fully understand the condition of the patient and to rule out any metal or foreign bodies that may be in the patients body. Blood lab results may be necessary for patients that are receiving contrast and who have kidney disease, high blood pressure and diabetes. These blood tests can be performed on-site for those patients that may require them before scanning. Typically, there are NO preparations or dieting for an MRI scan, although abdominal and pelvis scans may require some preparation.

Our Staff

The entire Technical staff performing your MRI scans are registered in MR Imaging and one or more other Radiology categories.

Our Radiologists (Physicians interpreting your MRI) are all Board Certified, specializing in Neuro, Orthopedics, Breast and Musculoskeletal Radiology.

Together our team of Physicians and technologists possess many years of expertise.

SEDATION is provided to patients who are claustrophobic and/or are in need of pain management by our full time nursing staff of Board Certified Registered Nurses.

These nurses provide both oral and/or inter-

muscular (IM) injection sedation prior to the MRI scan. This will allow for patients to be relaxed and comfortable during their scan and assure quality control of the images that are performed. The nursing staff is readily available to take medical histories on all referred patients. A licensed driver must accompany patients that receive sedation to ensure that they return home safely after completion of their study.
